A TOKEN FOR A FREE WORLD

WHITEPAPER 2.1

“If you see something that's wrong, you've got to do something about it.” — Henry Spira

“Is not this the kind of fasting I have chosen:
to loose the chains of injustice
and untie the cords of the yoke,
to set the oppressed free
and break every yoke?” — Isaiah 58:6

“It is only at night that the stars shine” — Winston Churchill

INTRODUCTION

During this COVID 19 pandemic, we have witnessed a global attack on individual rights, freedom and free will.

In many countries, unvaccinated people are being discriminated against. They are being denied fundamental rights and freedom.

Governments, that are supposed to protect us, used various methods of pressure and even intimidation to force their citizens to be vaccinated.

Helped by the fear of COVID 19, they are increasingly leaning towards totalitarianism.

We are witnessing human tragedies as a consequence of these policies. Unvaccinated men and women are losing their jobs, are denied health care, or are separated from their families because they can no longer travel. Some have been deprived access to their bank account just for fighting for freedom.

This situation is unacceptable but we trust that God is ever vigilant as we pray and fight for peace, justice and freedom.

Time is our best ally against the lies. The entire truth about their intentions will be exposed. The links of interests with big pharma will eventually be discovered.

WHY UNVAXCOIN?

UNVAXCOIN was created to help the unvaccinated, defend individual freedom, and the right of free choice.

UNVAXCOIN primarily targets all those who want to stand up and take action against the injustices done to the unvaccinated community.

UNVAXCOIN is intended to be the fuel to support efforts to improve the lives of the unvaccinated.

MISSION

“We are UNVAXCOIN. We are a light in this dark world.”

Our mission:

To serve the unvaccinated community and to defend their rights and liberties.

Our value:

Justice, Compassion, and Freedom.

VISION

We aim to be the official cryptocurrency of the unvaccinated community.

UNVAXCOIN is a community-driven project. We want to build a global community to help the unvaccinated, and defend their rights and liberties.

Our token will mainly be used to financially support innovative projects that will positively impact the lives of unvaccinated people.

UNVAXCOIN ecosystem will have various use cases. For example, anyone with UNVAXCOIN can use it to personally help unvaccinated people, create or support community projects, donate to the Donation Wallet, or hold to receive passive income.

In order to pursue stability and maintain the value of our token over time, we will regularly burn tokens.

PASSIVE INCOME

"He who gathers money little by little makes it grow."

— Proverbs 13:11

This pandemic teaches us that the time has come to be as self-sufficient as possible. The days of depending solely on a salary are over. You can lose your job anytime if you don't comply. The government can also block access to your bank account if you don't comply.

You have to be as independent as possible in an increasingly uncertain environment. This why we are offering the possibility for the UVX family to earn Passive Income.

Our Passive Income program is simple: hold a minimum of 100,000 UVX to receive a monthly reward on your holdings. Earn up to 10% APY. Regardless of marketprice, you still earn.

Snapshot and distribution will happen the 1st week of every month.

Our first passive income airdrop is scheduled for the first week of July 2022.

DONATION WALLET

The main objective of the Donation Wallet is to financially support projects intended to serve the unvaccinated community. 15% of the initial supply has been transferred to the Donation wallet.

Any \$UVX or \$XRP holder can make a donation. We are committed to be fully transparent and actively involve the community in the use of Donation wallet funds.

The Donation Wallet adress is: rDa7PKcn89FGcAv6bFdwJHDPuMamjU2bmB

UNVAXCOIN ON XRPL

UVX Token is built on the XRP Ledger (XRPL) public blockchain. XRPL is a decentralized blockchain of world renown. It is reliable, fast and transaction costs are extremely low. Each transaction on the XRPL costs a fraction of a penny. Additionally, the XRPL is scalable and can handle up to 1500 transactions per second.

Due to its decentralized nature, no single party can control the XRP Ledger and it becomes more decentralized over time.

We want to use the full potential of the XRPL blockchain to accomplish our mission.

CONCLUSION

Vaccinated and unvaccinated, let us stand united against oppression and injustice in these unprecedented and challenging times.

If you have resisted until now, you are very strong and bold. Your courage and your determination are commendable because the pressure came from all sides. As Winston Churchill said, “It is only at night that the stars shine.”

We are aware of the hope we raised with the UNVAXCOIN project. Our determination to help the community remains intact. You can count on us. This is only the beginning of our journey.

We are UNVAXCOIN, we are a light in this dark world. You can make a difference. Help us spread the word about UNVAXCOIN.

Let’s continue to change the world together, the best is yet to come.

God bless you All.
